Re:	Detailed Investigative Analysis of how Industrial Union Leadership Has Betrayed Their Rank-and-File Membership Through an Aggressive Personal and Organizational Hostility to the Make America Great Again Movement Generally, and President Trump Specifically. Report Five – United Steelworkers (USW)

Following is the fifth report on seven leading industrial unions with membership who strongly support the Trump-Vance agenda, but whose leadership have abandoned the will of their membership and taken on a heavily liberal partisan lean. This report focuses on the SMART – United Steelworkers (USW) union.

When President Trump secured the Republican nomination in 2016 and then subsequently defeated Hillary Clinton, he completed a fundamental re-alignment of the Republican Party's policy agenda and its electoral base. The President's re-alignment endured through the Biden election in 2021 and through the President's re-election in 2025. A crucial part of the President's re-alignment of the Republican Party was his focus on issues that were vital to blue-collar workers, particularly immigration enforcement and adjustment of the U.S. trade regime through preference for bilateral agreements and the willingness to use tariffs as a tool of trade and domestic policy. At the center of the President's base was the working-class men without college degrees, many of whom were members of industrial unions.

While the broad support for the Trump-Vance agenda by industrial union members has been widely reported on, news of this nearly decade old re-alignment has apparently yet to reach the leadership of the United Steelworkers (USW) union whose dues-paying members repeatedly cast ballots for President Trump.

The United Steelworkers (USW) is the largest steel union in North America representing over 850,000 members and retirees across the continent. USW had made no secret of their allegiance, working against the Trump-Vance agenda, constantly critiquing the administration for any action, endorsing Democratic politicians, and instructing members on how to "plan for ICE raids". These actions cast aside the members of the union who support the Trump administration, instead choosing to use the unions funding and media to push their own agenda.

The union is also particularly hostile to key Republican ally, Elon Musk, having a history of posts criticizing his involvement in DOGE, and claiming that he is "racist" with segregated factories and "sexist" working conditions.

MAGA Membership & Woke Leadership - United Steelworkers (USW)

USW throws its weight behind leftist organizations such as the Economic Policy Institute, Blue Green Alliance, and more. Pride at Work, an organization that is particularly anti-Trump, is funded in part by USW. Pride at Work frequently sponsors protests and anti-Trump movements such as the “No King’s” movement.

USW’s efforts don’t stop there, with a supermajority of its federal candidate/PAC political spending (90%+) going to Democratic candidates and PAC’s with only a token amount going to Republicans.

If using political funding nearly exclusively for Democrats wasn’t enough, USW is no stranger to wasteful spending. USW spent over \$180,000,000 from 2017-2024 on political spending, legal, hotel and conference, travel, swag, food and beverage, and entertainment. \$2,000,000 of this was on sports franchises, golf, amusement parks, and other entertainment events like parties.

Despite all this, USW leadership didn’t miss the opportunity to walk around with a little extra green in their wallet. Despite a median iron and steelworker salary of \$62,700, nearly half (45%) of union headquarters staff earns a six-figure salary.

USW leadership is united in its effort to oppose the common-sense policies of the Trump administration, marked itself an enemy of the people, all while supporting left wing activist groups and ensuring their own plates were full while leaving its members out to dry.

Methodology

Sourcing

Spending from LM-2 forms were sourced via the Office of Labor-Management Standards payee/payor search. All entities (locals, regional councils etc.) for each union were combined into one spreadsheet to detail spending from 2017 to 2024. All spending for PACs and Independent Expenditures were gathered from the Federal Election Commission.

Political Spending

Unlike most organizations, owing to their history of corruption, many labor unions are subjected to a much more extensive public disclosure requirement regime than most not-for-profit organizations. The chief disclosure mechanism for unions is the LM-2 form that is required by the Office of Labor-Management Standards. This form requires detailed reporting of line-item expenditures from the union, detailing nearly all expenditures by the union. In the reporting below we will detail political expenditures from the union both as detailed in their LM-2, and as detailed with the Federal Elections Commission for hard dollar political donations from their PACs and Independent Expenditures. We also detail political expenditure from the union's LM-2 that are political/advocacy in nature, including advocacy and political activities that are not necessarily tied to a registered political committee, but are clearly designed to influence public debate.

Wasteful Spending

We have compiled the LM-2 forms for all seven unions from 2017-2024 (last available year for all unions). 2017 was used as it marked the beginning of President Trump's first term. The disclosure of union spending on these forms is broken down under five categories that include general overhead, union administration, representative activities, contributions/gifts/grants, and political activity. These spending categories (golf outing as general overhead) are often misleading, so we have created seven new classifications that more accurately describe union spending. New categories for spending are listed as follows, entertainment, food and beverage, hotel and conference, legal, political spending, swag, and travel.

Categories

Entertainment – Parties, amusement parks, recreational events/activities, as well as sports ventures and venues

Food and Beverage – Restaurants, drinks, fast food, and catering

Hotel and Conference – Resorts, hotels, conferences, banquets, and event venues

MAGA Membership & Woke Leadership - United Steelworkers (USW)

Legal – lawyers, law firms, arbitration, and any legal expenses

Political Spending – Advocacy, ideological organizations, candidates, committees and all expenses the union labels as political activity

Swag – Watches, jewelry, t-shirts, gifts, printing, and any merchandise purchased by the union

Travel – Airlines, travel expenses, and travel agents

Political Spending Undermining MAGA Policies

An analysis of USW’s political spending reveals an extraordinary level of bias towards left-wing politicians and organizations. The union has contributed to several organizations that actively seek to stop the implementation of the Trump-Vance agenda.

Spent \$42,000,000 in Union Funds on Politics

The United Steelworkers have spent over \$40,000,000 on politics from 2017-2024.¹ Most of this money went to groups like advocacy groups like USW Works and left-aligning organizations like the Economic Policy Institute.

Money Given to Socialist Organization

Workers Defense League was co-founded by socialist presidential candidate Norman Thomas.³

WDL was founded by Norman Thomas, David L. Clendenin, and others, as a fusion of several ad hoc committees to defend union organizers who were being legally and sometimes physically attacked in Florida, Indiana and elsewhere.

United Steelworkers Political Action Fund Operates as a Financial Vehicle for Democratic Power

The United Steelworkers Political Action Fund directs the overwhelming majority of its political resources to Democratic candidates and Democratic party infrastructure. The committee sent \$1,162,893.12 to Democratic party committees compared to \$0.00 to Republican committees.

The federal candidate breakdown is just as lopsided. The fund contributed \$440,000.00 to Democratic federal candidates and only \$35,000.00 to Republican candidates. That means 92.63% of federal candidate dollars flowed to Democrats and just 7.37% to Republicans. For every dollar directed to a Republican federal candidate, roughly 12.57 dollars went to a Democrat. This pattern reflects a deliberate and sustained financial alignment with one side of the political aisle.

MAGA Membership & Woke Leadership - United Steelworkers (USW)

Although isolated state-level deviations appear in limited circumstances, those exceptions are minor relative to the scale of national spending. In the federal races and high-impact states that shape congressional control, the dominant flow of funds favored Democratic candidates and Democratic-aligned committees.

- HOUSE MAJORITY PAC received \$250,000.00; ¹³

These are not incidental expenditures. They represent institutional investments reinforcing Democratic electoral strength at the national level.

Independent Expenditures Reinforce the Same Directional Pattern

In addition to its hard-dollar program, the fund reported \$135,411.08 in independent expenditures during the reviewed cycles. The overwhelming share of this spending supported Democratic candidates or opposed Republican candidates. Taken together, both hard-dollar contributions and independent expenditures reflect a unified and sustained partisan strategy.

Waste and Abuse Within the Union

USW is not immune to wasteful spending. Like many of the other unions, USW has spent millions in entertainment, swag, luxuries, and more instead of using it to benefit their members.

Over \$25 Million Spent on Swag and Union Luxuries

USW spent over \$180,000,000 on political spending, legal, hotel and conference, travel, swag, food and beverage, and entertainment.¹⁴
